Please consider a more stringent monitoring of Microsoft's business ethics. Although it is partly hype, there ARE reasons why MS are hated. They lie, steal and cheat, and \*THIS\* is the problem. If that can be prevented, I have no objection to a large, ETHICAL business.

"The most beautiful we can experience is the mysterious.  
It is the source of all art and science. He to whom this emotion is a  
stranger,  
who can no longer pause to wonder and stand rapt in awe,  
is as good as dead; his eyes are closed." -- Albert Einstein
